Elite Slimline

Food Waste Disposers

Everybody enjoys having a clean kitchen environment where smells are only delicious. That's why we've created the Franke Elite Slimline range of food waste disposers, each designed to be a daily family assistant helping to easily manage food waste, reduce risk of germs and odors, and offer a more sustainable approach to everyday kitchen life.

A powerful performance

Experience unmatched performance with our revolutionary Twist Force technology, that offers exceptional grinding power without jamming. A hygiene safeguard also fights against the growth of bacteria and unpleasant odors with its antimicrobial protection.

Details that deliver

Each waste disposer features a high-flow splash guard ensuring the grinding chamber is left clean. A strong Magnetic Rim on selected models is also designed to attract kitchen utensils and other miscellaneous metal objects.

Experience tranquility

Say goodbye to loud and disruptive grinding sounds. Our grinding chamber is equipped with a specially engineered insulation foam covering, designed to minimize noise.

Space saving design

The 3-Bolt Mounting System ensures it can be easily installed in any sink with a 3 1/2" waste hole. The slim shelled body is designed to maximize space underneath the sink, making it an ideal additional to any kitchen.
